

Consultation on New Pavilion Proposal

September 2019

The existing pavilion has been facilitating sports activities on the green for nearly 60 years, but it is showing its age and suffers from a shortage of facilities.

Extensive repairs to the building are required for both the roof and the outer frame. In consultation with sporting bodies and grant organisations we find it falls short in many other aspects including safeguarding and equality. For instance, there is no disabled access to the building or the upper floors, there is only one set of showers and changing facilities do not allow for appropriate safeguarding legislation or any form of mixed showering. The building is also costly to run and is not environmentally friendly.

It is important to bear in mind that the green benefits from statutory protection, any revised pavilion design and its position on the green must reflect this; it is there to support sport on the green and cannot stray from this purpose.

To help Wisborough Green Sports and the Parish Council to gauge community opinion and progress the project, please look at the information boards and answer the following questions. Please use comments to explain your views.

Section 1	Yes	No
Do you agree that the Pavilion should be replaced?		
Comment:		

Section 2	Like	Dislike
Overall, do you like/dislike the proposed design?		
What do you like about the design?		
What do you dislike about the design?		

Section 3		
This proposal is a larger building than the current pavilion in order to provide necessary, enhanced, facilities. The design aims to minimise its impact on the green, whilst still meeting the physical requirements. Both the shape and size of the enlarged building have to be sensitive to the impact on views across the green and its Conservation Area location, as well as various planning constraints. We would like your views on whether the balance is about right. Please add comments to explain your views.		
Do you think the size of the design is:		
Too small	About right	Too large
Comment:		

Section 3		
Is the extent of the sporting facilities of the proposed design:		
Too little	About right	Too much
Comment: 		
Is the extent of the social facilities of the proposed design:		
Too little	About right	Too much
Comment: 		
Is the impact of the proposed building to the views across the green:		
	Acceptable impact	Not acceptable
Comment: 		
Is the proposed design is in keeping with the location on the village green?		
	Acceptable	Not acceptable
Comment:
